DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Nair Flores (Reg. No. 54103) on 26 October 2005 and 01 November 2005. The application has been amended as follows:

2. Claim 6, 2nd line, delete "the edge" and replace with --a surface--.
3. Claim 7 (cancel).
4. Claim 8, 1st line, delete "7" and replace with --16--; 2nd line, delete "the" between the words "controls" and "functions".
5. Claim 11, 2nd line, delete "is" and replace with --are--.
6. Claim 12, 2nd line, delete "used in place of the candy cover" and replaced with --added--.

The following claim has been added:

7. Claim 16 (new) A novelty candy assembly as claimed in claim 6, further including a portable power source comprising batteries.

Allowable Subject Matter

8. Claims 1, 2, 4-6, 8-14 and 16 are allowed.

Art Unit: 2875

9. The following is an examiner's statement of reasons for allowance: prior art discloses a novelty candy having either conventional flip switches, or a push button switches, or a switch that works by conductive of electricity through the body of the person who consume the candy. Prior art does not disclose a novelty candy having a conduit and mechanical pressure sensitive switch that requires a person to suck on the candy, while consuming it, to activate the prerecorded music and light.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art discloses a mechanical vacuum switch activates the light emitting diode and the speaker inside the novelty candy.
